CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AND FOR THE RELIEF OF PATIENTS IN ADVANCED STAGES OF CONSUMPTION.

Many years of trial instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud upon the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral does not only a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European Kings. Throughout this entire country, in every State, city and indeed almost every hamlet it contains, *Cherry Pectoral* is known as the best remedy extant for diseases of the Throat and Lungs—and in many foreign countries it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, *Cherry Pectoral* is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of lungs. Also in milder cases and for children it is safe, pleasant and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The *Cherry Pectoral* is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavoured here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust by great care in preparing it with chemical accuracy, of uniform strength to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

PREPARED AND SOLD BY J. C. AYER, DRUGGIST and CHEMIST, LOWELL, MASS. Sold in Bangor at wholesale and retail by INGRAHAM & FULLER, also by G. W. Emerson, A. P. Guild, G. F. Sargent, Druggists, Bucksport, C. L. Bradley & Co, Belfast, Wm O Poor, Ellsworth, B. Nourse, Hampden, Isaac Snow, and by the Druggists generally throughout the country.

THE ROAD TO HEALTH!

HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION.

Copy of a Letter from Mr. R. W. Kirkus, Chemist, 7, Prescot Street, Liverpool, dated 6th June, 1851.

To Professor Holloway,

SIR,—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the last occasion, however, the virulence of the attack was so alarming, and the inflammation set in so severely that doubts were entertained of her not being able to bear up under it, (fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them and although she used only three Boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above from the severity of the attack and the speedy cure, I think speaks much in favor of your astonishing Pills.

(Signed) R. W. KIRKUS.

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER IN VAN DIEMEN'S LAND.

Copy of a Letter inserted in the Hobart Town Courier, of the 1st March, 1851, by Major J. Walch.

Margaret M'Connigan, nineteen years of age, residing at New Town, had been suffering from a violent rheumatic fever for upwards of two months which had entirely deprived her of the use of her limbs; during this period she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered [illegible]. A friend prevailed upon her to try Holloway's celebrated Pills, which she consented to do, and in an incredible short space of time they effected a perfect cure.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE.

From Messrs Thew & Son, Proprietors of the [illegible] Advertiser, who can vouch for the following statement. August 2d, 1851.

To Professor Holloway,

SIR,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath, that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I am desirous that others should be made acquainted with their virtues. I am now rendered, by their means, comparatively active, and can take exercise without inconvenience or pain, which I could not do before.

HENRY COE, North street, Lynn, Norfolk.

These celebrated Pills are wonderfully efficacious in the following Complaints

Ague	Female Irregularities	Scrofula, or King's Evil
Asthma	Fevers of all kinds	Sore Throats
Billious Complaints	Fits	Stone and Gravel
Blotches on the skin	Gout	Secondary Symptoms
Bowel Complaints	Head-ache	Tic Douloureux
Colics	Indigestion	Tumours
Constipation of the Bowels	Inflammation	Ulcers
Consumption	Jaundice	Venereal Affections
Debility	Liver Complaints	Worms of all kinds
Dropsy	Lumbago	Weakness, from whatever cause, &c. &c.
Dysentery	Piles	
Erysipelas	Rheumatism	
	Retention of Urine	

Sold by the Proprietor, 244 Strand, (near Temple Bar,) London, and by all respectable Venders of Patent Medicines throughout the British Empire, and by those of the United States, in Pots and Boxes at 37½ cts—87 cts, and $1,50 each. There is a very considerable saving by taking the larger sizes.

Great American Remedy,

FOR COLDS, COUGHS, ASTHMA, CROUP AND CONSUMPTION.

WHY, Invalids, do you almost invariably overlook the very best remedy for your complaint, in search of something with a foreign or mysterious, or crack jaw name? Half of them are made by quacks, or persons having not a title of the scientific and practical knowledge, either of medicines, or of the human system of the author of the above medicine. For dry, hard coughs and for children with severe stuffed colds, or with croup, it is invaluable; and I challenge a trial of efficacies with any Indian, Egyptian, Arabian, English, French, German or any other foreign or domestic preparation which is now offered to the public for sale, in all the cases for which it is recommended. It was used by Doct Jably Hardy, its author, for many years, with great success. More than twenty thousand have used it, and all commend it, then why look farther?

Prepared and sold, wholesale and retail, by WM. G. HARDY, No 3 Harlow's Block.

For constructing a steam dredge, equipment and discharging scows for Lake Champlain, and improving the navigation thereof, twenty thousand dollars.

For connecting the waters of the Indian river, and Mosquito lagoon, at the Haulover, Florida, five thousand dollars.

For the repairs, preservation and contingencies of the harbor works on the Atlantic coast, ten thousand dollars.

For repairs and construction of harbors and rivers, and to meet charges for transportation of officers and for fuel and quarters, the payment of which is no longer made by the Quartermaster's Department, and to provide allowance to meet extra expenses, under the special direction of the Secretary of War, ten thousand dollars.

For the improvement of the navigation of the Tennessee river, fifty thousand dollars, in conformity with the estimates of the War Department of the thirteenth July, eighteen hundred and fifty-two, and for the improvement of the rapids of the Illinois river, the sum of thirty thousand dollars.

For the improvement of the harbor and breakwater at Waukegan, Illinois, fifteen thousand dollars.

That the Secretary of War cause to be examined and surveyed the river Savannah, from the city of Savannah, as high up as the city of Augusta, the Ocmulgee up to Macon, and the Flint up to Albany, and the Chattahoochee up to Columbus, in the State of Georgia, and to report to Congress the amount of money which may remove any obstruction to navigation, and that the sum of ten thousand dollars be appropriated for that purpose.

For filling in behind the United States seawall in the harbor of St. Augustine, Florida, with earth, three thousand dollars.

[PUBLIC ACT—No. 59.]

AN ACT making appropriations for the transportation of the United States mail by ocean steamers and otherwise, during the fiscal year ending the thirtieth of June one thousand eight hundred and fifty three.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums be and the same are hereby appropriated, to be paid out of any money in the Treasury not otherwise appropriated, for the year ending the thirtieth of June, one thousand eight hundred and fifty-three.

For the transportation of the mails from New York to Liverpool and back, eight hundred and fifty-eight thousand dollars.

For transportation of the mails from New York to New Orleans, Charleston, Savannah, Havana, and Chagres, and back, two hundred and ninety thousand dollars.

For transportation of the mails from Panama to California and Oregon, and back, three hundred and forty-eight thousand two hundred and fifty dollars.

SEC. 2. *And be it further enacted,* That the following sums be and the same are hereby appropriated for the service of the Post Office Department, for the year ending the thirtieth of June, one thousand eight hundred and fifty three, out of any moneys in the Treasury arising from the revenues of said Department, in conformity to the act of the second of July, one thousand eight hundred and thirty-six.

For transportation of the mails in two steamships, from New York, by Southampton, to Bremen and back, at one hundred thousand dollars for each ship, and in two steamships from New York, by Cowes, to Havre and back, at seventy-five thousand dollars for each ship, under the contract with the Ocean Steam Navigation Company of New York, in addition to an unexpended balance of former appropriations, two hundred and ninety-four thousand dollars.

For transportation of the mails between Charleston and Havana, under the contract with M. C. Mordecai, fifty thousand dollars.

For transportation of the mails across the Isthmus of Panama, one hundred thousand dollars.

Approved, August 30, 1852.

He's None the Worse for That.

What though the homespun suit he wears,
Best suited to the sons of toil—
What though on the coarsest food he fares,
And tends the loom or tills the soil—
What though no gold leaf gilds the tongue,
Devoted to congenial chat—
If right prevails, and not the wrong,
The man is none the worse for that.

What though within his humble cot
No costly ornament is seen—
What though his wife possesses not
Her satin gowns of black and green—
What though the merry household band
Half naked fly to ball and bat—
If conscience guides the heart and hand,
The man is none the worse for that.

True worth is not a thing of dress—
Of splendor, wealth, or classic lore;
Would that these trappings we loved less,
And clung to honest worth the more!
Though pride may spurn the toiling crowd,
The faded garb, the napless hat,
Yet God and Nature cry aloud—
"The man is none the worse for that."

Prospects of the Campaign.

The coolest and fairest and best calculations on the loco side, with all their attachments to party and hope of success for their candidate are compelled, by the force of circumstances, to admit that the chances between Scott and Pierce are exceedingly close. This is the best they can do, and they hope the scale may turn in their favor and elect Gen. Pierce.

The prudent and careful reviewers of the field upon the whig side, after dispassionately observing the signs of the times see abundant indications that Gen. Scott's chances of success are steadily and rapidly increasing. The New York Times in speaking upon this subject says of matters near home, and of which they have every opportunity of judging fairly that in New York and Pennsylvania—despite the occasional efforts of the Opposition to arouse effort by claiming a victory—the contest is substantially ended. The partizan friends of Gen. Pierce have not been able to make an impression upon the public mind, in his favor. Neither his military achievements nor his civil qualifications, have drawn toward him that warmth of popular admiration essential to his success; while the assaults, on the other hand, upon the character, history and opinions of Gen. Scott, have resulted only in commending them all still more warmly to public favor. There is, indeed, no man living upon whom the fiercest partizan warfare could fall more harmlessly than upon Winfield Scott. The purity of his private life—the inflexible integrity of his personal character—the eminence of his public services and the proof afforded by every act of his life that *patriotism* has been the rule and guide of his whole career, stamp him as a man impervious to calumny. The popular heart beats responsive to the claims of such a man; nor can its strong current of friendly regard be turned away by the most envenomed assaults of party malice.

There is one argument by which some of the opposition cipher out, by a very simple process, an easy victory for General Pierce. They say that, in 1848, the votes for Cass and Van Buren together were greater by some thousands, than the vote for Taylor; and that, as these two sections of the Democratic party are now united, they must prove successful. But this leaves out of view the fact, that thousands and tens of thousands of whigs voted for Van Buren in 1848, whose votes will now be cast for Scott; and this consideration alone is quite sufficient to nullify all the calculations they have based upon the supposition that General Pierce is to receive *all* the votes that were cast for Cass and Van Buren in 1848.

Ohio is now, in our judgment, a much more doubtful State for General Scott than either New York or Pennsylvania; and we consider New Jersey quite as doubtful as either of the three. Yet in Ohio the whig cause gains strength daily. Scott's presence at the West, will rally new enthusiasm to his support. His manly directness and truthfulness of manners and of speech—the evident nobleness of character, and fitness for great duties and responsibilities—which his appearance and bearing unmistakeably indicate, and the memory of his services, which his presence awakens, will not be lost upon the ardent, impressible nature of the western people. He will carry Western States, in our opinion, which have vote for no whig since 1840.

☞ Mr. H. A. Head has received his annual supply of Hyacinth, Tulip and other bulbs for the purpose of supplying those who wish for beautiful spring flowers for their gardens.—Hyacinths in the open air ought to be planted in October, three inches deep measuring from the top of the bulb, Tulips three inches, Crown Imperial and Liliums four inches, Crocus two inches, Narcissus three inches, Polyanthus Narcissus six inches, Jonquils, Iris, Gladiolus three inches, Anemonies and Ranunculus two inches. Those which are to bloom in the house ought to be planted in pots filled with light loose earth whilst the bulbs only want just to be recovered with it, and the earth kept continually wet, and exposed to as much sun and air as possible.—Hyacinths placed upon glasses ought to treated in the same way as those in pots, only let it be clear pump or rain water and refresh this every fortnight; the bottom of the bulb should just touch the water.

WASHINGTON, Oct. 8.

It is rumored here that the English and French Governments have both tendered their aid to Spain; which fact is supposed to have prompted the recent outrage on the Crescent City. It is also reported that Peru has solicited the aid of the same powers, to prevent our citizens from taking Guano from the Lobos Islands.

Great Attraction at City Hall.

An entertainment of great merit is offered this evening at City Hall, consisting of the beautiful drama called the "Cross of Gold," founded upon Napoleon's great achievement at Austerlitz, and also the celebrated comedy of Charles the Second, in both of which Mr. Leman and Mrs. English sustain important characters, and all the other members appear in favorite parts. The entertainment will be interspersed with elegant dancing and glorious music by Philbrook and Fisher's Band. It is to be hoped that the house will be crowded to overflow. X.

A JOURNAL KEPT DURING A SUMMER TOUR, for the children of a village School. By the author of "Amy Herbert," "Gertrude" &c. New York—D. Appleton & Co. 1852.

We have here a handsome thick volume, three in one, affording a large amount of instruction and entertainment from the pen of a traveller, specially solicitous to furnish to youth valuable reading. The incidents of travel are happily narrated, and the observations and remarks are well calculated to awaken interest. There is a merit in that spirit of kindness which runs through the work so well designed to excite the same in the mind of the reader. There is a good element of equality taught which is worth much.

This work may be obtained at the Bookstore of Mr E F Duren on Hammond street.

☞ We learn from the Lowell Courier, that Mr. Henry Nelson of Lawrence, who was so badly injured by the premature discharge of a cannon while firing a salute in honor of the Lowell Scott Club, on Saturday before last, died on Tuesday noon. He leaves a wife and two young children. The other sufferer, Mr. J. L. Stevenson, who had one hand and wrist so badly shattered that amputation of the fingers was necessary, is still dangerously ill.

Over one thousand dollars have been subscribed in Lawrence for the benefit of the family of the deceased.

☞ We learn from the New York Tribune, that the residence of the late A. J. Downing, at Newburgh, was sold on Thursday at auction, for $18,000; the bronze vases, &c., at $236.—H. Ramsdell and Frederick J. Betts, Esqs., of Newburgh, were the purchasers. These gentlemen were offered $20,000 for the property before leaving the grounds, but declined it, preferring to hold the place for a few days, in the hope that a price may be obtained for it nearer its real value. Any advantage that may be realized in the purchase and sale of the property they liberally propose, shall be enjoyed by Mrs. Downing.

☞ A letter from Georgia, states that the whole proceeding of the Webster Convention there, was still-born, and met with no response from the people of Georgia. Some of the persons nominated as electors have declined, and not a hundred votes in the State will be diverted by this cause, from General Scott. The divisions of the Democrats, which at one time appeared to be smothered, have broken out in earnest, and without any prospect of their effectual suppression before the day of election. There is now good reason to expect that Georgia will vote for General Scott.

☞ The new voters brought into political being by the Constitution which Virginia last year sensibly gave herself, are manifesting their preference for General Scott by thousands, and will perhaps turn the scale in that State.

☞ The sixth neat and pleasant volume of Chamber's Pocket Miscellany, published by Messrs. Gould & Lincoln, Boston: has been received at E. F. Duren's Bookstore, near the Post Office.

☞ Look out for counterfeit $10's on the Ascutney Bank at Windsor, Vt. Also counterfeit $3's on the Carroll County Bank at Sandwich, N. H.

☞ Mr. E. F. Duren has received the October number of Merrey's Museum, an elegant monthly publication for children and youth.

The libel suit of Thomas A. White, Esq., against the publishers of this paper, and which has been for some time in court, and which was set down for trial at the present term of the September Court, has been fairly and amicably settled.

The cause of the action was for the publication in our columns, of an advertisement handed to us by an individual, and which was hastily and without scrutiny, or suspicion, and consequently without prudent caution on our part, admitted into the advertising columns of the paper.

The author of the advertisement is satisfied that its publication was unfair, inexpedient and wrong; and for our part, we are not only of the same opinion, but we exceedingly regret, that an article should have found its way into our columns, which could be construed into an imputation upon the character of one of our most enterprising citizens, who, for a period of nearly twenty years has been extensively engaged in regular business in our city, and has attained a high position as a Merchant in the legitimate course of a prosperous trade.

CUBA. It would appear by the following statement in the New York Tribune, that another filibuster expedition is seriously contemplated. We presume that those who take part in this movement are well aware of the probable consequences. A terrible retribution will, we fear be visited upon those who take part in the third attempt upon Cuba:—

"We have reason to believe that the organization which contemplates the liberation of Cuba by means chiefly of military aid from this country, is in a much more forward state than is generally supposed. Enlistments have taken place in most, if not all of the large towns from New York to Cincinnati and St. Louis in the West, and to Charleston and New Orleans in the South. Moving with secrecy, and guarding the features of the scheme, as far as possible, from publicity, this conspiracy promises itself to avoid the errors and failure of its predecessors. With all needful funds it is supplied from Cuba itself, and from the contributions of sympathizers here. At the same time, the leaders mean to hazard nothing by hasty and immature action, unless unexpected circumstances should expedite the crisis."

The Wages of Labor.

Any man who can look back a quarter of a century must know that, instead of diminishing, the wages of labor have greatly increased since manufacturing became a feature of New England industry. The editor of the New York Tribune states that "his father, when a young man of eighteen, has done a man's full work in New England, through the winter, for seven dollars a month and board—going out into the woods before daylight and hauling timber till dark without dinner. No New England youth of equal ability now does such work for less than twelve dollars per month, and better fare than was then furnished is indispensable." To which he adds the following: "The editor of the Tribune was born forty-one years ago, within a few miles of the now great manufacturing cities of Lowell, Mass., Manchester, N. H., but there was no factory at either of those places, and hardly a habitation during the ten years he lived in their vicinity. He distinctly remembers that a laboring poor man—a good hand, then in the prime of life—worked through haying and harvest, in 1818, for *half a bushel of corn per day*, the worth, perhaps, fifty cents. Now no such man would work through haying and harvest on that same farm for less than a dollar per day, which would buy him at least a bushel and a peck of corn."

We, too, have had some personal experience and knowledge in this matter. We can distinctly remember when none but Yankee girls were employed as household "helps" in families, and when plenty of them could be obtained at seventy-five cents per week. Even here in the city, thirty or forty years ago, the ruling price was a dollar a week for "hired" girls. And how, forsooth, we hear complaints of the "oppression" of girls employed in our factories, when their average weekly wages, above their board are at least twice as good as were the wages of girls thirty years ago. The fact that an American-born girl can now hardly be found who will take a situation to do housework, when a few years since thousands were thus employed, gives the lie to the assertion that the factory operatives are "oppressed." They are a shrewd class of people, and know perfectly well where they can make the most money and enjoy the greatest advantages.

And what is still more significant of the home manufacturing system, is the fact that the man who, thirty or forty years ago, worked for seven to twelve dollars a month, was obliged to pay thirty-three cents a yard for cotton cloth to make him a shirt. Now he can purchase a better article for eight cents per yard. The same change has come over nearly every other description of clothing; so that while the laboring man or woman is rejoicing over doubled wages, the expenses of living have become vastly diminished and the comforts of life greatly enhanced.

That this is the result of increasing the varieties of labor or productiveness, is as "plain as a pikestaff." And does the most foolish man among us—that is, the most decided free trader—believe that the manufacturing system would ever have existed here but for a reasonable amount of protection? Of course not. The few factories which had sprung up during the negative protection afforded by the late war with Great Britain, went down like the stick of a rocket at the close of that war. What we have had of a protective tariff has increased the wages of labor and the comforts of life to the laborer. Better protection would be still better for the laborer, while no protection at all would manifestly sink him to a level with the pauper laborer of Europe.—Boston Mail.

The Way a Soldier Talks.

General Alexander B. Bradford, of Holy Springs, Mississippi, says the Franklin *Review*, recently delivered a speech before the Scott Club of Memphis, by special invitation, in which he reviewed at some length, a speech lately made in the same city by Col. Jefferson Davis, of this State, in which Davis assailed the military conduct of Gen. Scott in regard to his manoeuvres in Mexico. Davis spoke of Gen. Scott as being proud, petulant, vain, and presumptuous. Gen. Bradford, who knows Scott well, both personally and as a commander, and is himself as brave and daring an officer as ever met the enemies of his country upon a battle-field, thus Jefferson Davis's speech.—He knows Scott well, and does not look at his glorious acts and achievements through the jaundiced eye of a personal and political opponent, as Colonel Davis does. He speaks what he knows, and testifies to what he has seen; and we commend the following short and eloquent review, to the especial consideration of all, who, like Colonel Davis, are disposed to criticise with undue severity the actions of the glorious old thunderer who has borne his country's banner to the breeze of an hundred dangerous and death-dealing battles:—

"Colonel Davis told you, fellow citizens, that in all of those qualities, which command the affections and confidence of those around him, Gen. Scott is singularly wanting—being proud, petulant, vain, and presumptuous. If it be *proud* to pay strict attention to the wants of the poor soldier—to visit the dreary and pestilential hospital, and wipe the moisture from the fevered brow of the sick—to wait upon the chilera patients of the army—to raise the dying soldier from his gory bed on the battle field and staunch his bleeding wounds—if it be proud to do these things, then Gen. Scott is a very proud, a very haughty man! It it be *petulant* to curb the restless and unruly officers of the army—to hold them down with a band of iron, and make them behave themselves like good soldiers and gentlemen—if it be petulent to be tight on the officers but good to the men—if this be petulent, then Gen. Scott is something of a petulant and peevish man. If it is vain to apparel himself on the eve of a battle according to the rules and regulations of the service, with his golden epaulettes on his shoulders and his tall plume towering above him, so that friend and foe may know his grade, and then to plunge into the battle when the conflict is fiercest, when the bullets rain thickest, and where the carnage rages deadliest—if this be vain, I am afraid Gen. Scott is a very vain-glorious man! [Tremendous applause.]—If to know that he possesses as much skill, promptitude, and judgment as any man of the age in planning a campaign, reducing a fortress or in drawing up the programme of a pitched battle, so clear in its details, so auspicious of success, that it would seem as if the victory was won before the battle is fought—if this be *presumptious*, then we must conclude, with Colonel Davis that Gen. Scott is also a very presuming man." [Cheers.]

THE INUNDATION OF THE RHINE.—The latest French papers give some further particulars of the late disastrous freshets on the Rhine. Sixteen villages in the department of the Lower Rhine are inundated, and all the plain around Strasburg is under water. At Rhinau, La Krafft, Obenheim, Gerstheim, Boofftzheim, Daubensand, and other villages, many houses have been swept away, the crops injured, &c. All communication was cut off from the commune of Rhinau, which counts a population of 1662 souls. The whole village of Dalhousen and its environs are under water, and the inhabitants have had to take refuge at Drusenburg was almost completely submerged. Much distress and suffering would result from this disastrous flood. At last accounts the waters were subsiding.

NEW YORK, Oct. 10.

The barque Cornelia which was boarded by the Cuban authorities at Havana and had her mails seized and taken ashore, arrived here last night. The Captain states that the passengers seized were disposed of in the following manner—the engineer, Samuel Harkness, is confined in jail, for attempting to leave Havana without a passport. The other man, who had a passport, is confined in a dungeon.

The police of this city is to be materially enlarged to accommodate the increased business.

Australia.

The following extract from the London correspondence of the *New York Commercial* will be read with interest:—

"The news from Australia, mentioned by the last packet, is attracting great attention, and its confirmation is looked for with extreme interest. The advices reach, as you have already been informed, to the 1st of July, and the accounts from Sydney embraced a statement that intelligence had just been received there, by steamer from Port Philip, that the produce of the Mt. Alexander mines during the preceding three weeks had averaged a sum nearly equal to $2,000,000 per week, and that the amount was steadily increasing. The previous accounts, which reached to the 29th of May, had led to the anticipation that extraordinary results would soon be reported in consequence of the setting in of the rainy season, which would furnish the long desired supply of water, but it was scarcely hoped that they could be such as have now arrived. There is, therefore, some hesitation in receiving them implicitly, and it is for this reason that further particulars are anxiously desired. Meanwhile, however, a collateral evidence of their probability is furnished by the non-arrival of vessels, the inference being that the attractions of the mines have been such as to defeat all attempts to retain or to procure crews. Under these circumstances, looking at the accumulation that must be going on, it is to be inferred that when the means of communication are better established we may expect to receive remittances to an enormous amount, and in that case some very remarkable effects can hardly fail to be produced in all our markets."

"With General Scott all was vanity."—Washington Union.

With General Pierce it was "vexation of Spirit."

John Tyler says that Pierce's election is "next to certain." No doubt of it. Scott's election is *certain*, and Frank's chances being second best, his, of course, is *next* to certain. [Cincinnati Republican.

OFFICE OF THE

Association for the Exhibition of the Industry of all Nations.

NEW-YORK, July 12th, 1852.

THE ASSOCIATION FOR THE EXHIBITION OF THE INDUSTRY OF ALL NATIONS give notice that the Exhibition will be opened, in the city of New York, on the 2d day of May, 1853. The Municipal Authorities have granted to them the use of Reservoir Square, and they are proceeding to erect thereon a building worthy of the purpose to which it is to be devoted. The Association desire to make the Exhibition, in fact as well as in name, a Representation from other countries as well as their own, of Raw Materials and Produce, Manufactures, Machinery and Fine Arts. To this end they have made arrangements with CHARLES BUSCHEK, Esquire, late Commissioner of the Austrian Empire at the Industrial Exhibition of London, whose skill, experience and high character offer the most satisfactory security to Contributors from abroad. Mr. Buschek is the authorized Agent of this Association, for all countries other than the Continent of America, and as such has received its instructions. All communications from Contributors abroad must be addressed to him at "The Office of the Exhibition of the Industry of all nations in New York," No. 8 Charing Cross, London. He will state to them the nature of the powers given and authority conferred, and will also explain the great inducements offered by this Enterprise to European Exhibitors. This Association will correspond with all persons in the United States, the Canadas and British Provinces, the West Indies, and this Continent generally, who may desire to contribute to this Exhibition. All such communications must be addressed to "THE SECRETARY OF THE ASSOCIATION FOR THE EXHIBITION OF THE INDUSTRY OF ALL NATIONS, New-York." The Association is now ready to receive applications, and it is desired that they be sent in immediately. Due notice will be given, hereafter, when the Building will be ready for the reception of articles. Application for the admission of Objects to the Exhibition must represent intelligibly their nature and purpose, and must also state distinctly the number of Square Feet, whether of Wall, Floor or counter, required. Machinery will be exhibited in motion—the Motive Power to be furnished by the Association—and applications for the admission of Machinery, to be so exhibited, in addition to the general description and the requisition for space, must set forth the amount of Motive Power required. The Association deem it proper to announce that Paintings in Frames will be exhibited. As, notwithstanding the magnitude of the proposed Building, there must necessarily, be a limitation of space, the Association reserves the right to modify or reject applications, but, in so doing, will be governed by strict impartiality, looking only to the general objects of the Enterprise. The Association also reserves the right of determining the length of time, not to exceed in any case one season, during which, objects shall, severally, form part of the exhibition. Exhibitors are requested to designate an Agent, to whom their contributions shall be delivered when withdrawn from the exhibition. Prizes for excellence in the various departments of the Exhibition, will be awarded under the Direction of Capable and Eminent Persons.—With this statement the Directors solicit the co-operation of the Productive Intellect and Industry of their own and other countries.

It always gives us pleasure to notice any article that confers a real benefit on the community, and it is with confidence we heartily commend Ayer's Cherry Pectoral to our readers as possessing extraordinary virtues for the cure of diseases incident to the Throat and Lungs. This may account for our frequent reference to this article which we feel fully justified in making known to the public.—[N. Y. Tribune.

The most extraordinary discovery in the world is Great Arabian Remedy for Man and Beast.
H. G. FARRELL'S
CELEBRATED ARABIAN LINIMENT.
The beautiful and fertile region skirting the desert of Arabia, abounds with rare plants and odorous woods, whence are procured those aromatic gums and balsams of which this Liniment is composed, and by whose stimulating, unctuous and penetrating properties it is, which applied, diffused through the whole nervous system, allaying the most intense pain in a few minutes. Try it, when you will be convinced that no preparation possesses in so high a degree, its perfect anodyne qualities. Its action is prompt and effective. It penetrates the flesh to the bone, relaxes contracted cords, restoring use to the limbs paralyzed for years, and where the flesh has wasted away, leaving nothing but skin and bone, excites a healthy action, causing new flesh to grow out and fill up the shrivelled parts. It restores the synovial fluid or joint water, and this is the reason why it has been so successful in diseases of the joints. In affections of the Spine, Liver, Lungs and Kidneys, the great remedy stands before any other ever produced. For ague cake or enlargement of the spleen, it is a specific. For any internal inflammation, you will find it gives great relief. It has no equal in the world for Rheumatism—Also, cramp, swelling, numbness, weak joints, Spine and Chest, pains, wounds, chilblains, burns, sore throat, bites of insects and reptiles, salt rheum, warts, corns, mange, and indeed nearly all diseases which require an external application, and many others, are greatly benefited by it. It is used externally with great success in goitre, or swelled neck, Scrofula or King's Evil, Liver Complaint, nervous diseases, &c. For Horses or Cattle, it is as effectual as in diseases of men. Will cure any case of Sweeney in existence; also, Spavin, Splint, Ringbone, Big-head, Fistula, Fancy, Poll Evil, Windgalls, Strains, Bruises, &c.

LOOK OUT FOR COUNTERFEITS.
The public are cautioned against another counterfeit, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because its having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale druggist, No. 17 Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's, thus—H. G. FARRELL'S—and his signature on the wrapper.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by R. E. Kinsell, Oldtown. French & Hamilton, Dexter. Geo. Purcher, Ellsworth. P. O. Flaherty, Houlton. And by regularly authorized agents throughout the United States.

Price 25 and 50 cents, and $1 per bottle.
AGENTS WANTED in every town, village and hamlet in the United States, in which one is not already established. Address H. G. Farrell as above, accompanied with good reference as to character, responsibility, &c.

BANGOR AIR-TIGHT
COOKING STOVE!

THE best Cook Stove ever introduced to this or any other people.

Having secured the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this one's market, by those experienced and expert Stove manufacturers Messrs. Eastes & Whittier, who know, and have appreciated the wants of this enlightened people. It is now offered to the public with the fullest confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its conveniences for Boiling, Broiling, Frying, &c, are not surpassed, its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the users. One very important feature is, it has very stout and smooth castings, and being manufactured in this city, can at all times be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be ordered from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and one not giving entire satisfaction may be returned and the money will be refunded after 30 days trial.

—ALSO—

A great variety of other patterns of cooking Stoves, such as the

Our State, Bay State, Empire State, Granite State, State of Maine, &c.,

All or any of which will be sold at extremely low prices.

Elevated Oven Stoves—Hampden 3 and 4 Boiler and two Oven—Boston two oven Stoves, Forrest Queen, &c—and that very beautiful pattern of Cottage Parlor Cook Stove, and in fact every variety of Stove for Cooking or warming, worthy of notice, can be found at the Central Street Stove and Furnace Depot.

CULVER'S COAL FURNACE

Acknowledged to be the very best Furnace for Coal ever introduced.

PROUTY & MEAR'S

PATRONIZE HOME MANUFACTURE!

PENOBSCOT and KENNEBEC
RAIL-ROAD STOVE!

IN offering this truly elegant and durable new Stove to the public we feel confident we are offering as good a Stove as has ever been introduced into this market. We do not claim perfection for it, but we are confident it has no superior in this or any other market, either in durability of material beauty of design, economy in fuel, or convenience in construction. The Castings are smooth and heavy, and are all warranted. The conveniences for Boiling and Baking are excellent, and for Broiling, it surpasses any thing we have ever seen,—carrying off all the smoke and steam.

We manufacture them in this city, and can furnish any pieces at any time, thereby saving the time and expense of procuring them from abroad.

Please call and examine them before purchasing.

—ALSO—

A great variety of other Stoves, such as the GRANITE STATE, the BAY STATE improved, the Constitution, The FORREST QUEEN, &c., &c. Also—all kinds of Elevated Oven Cook Stoves.

—ALSO—

Franklin, Cylinder, Box, Sheet and Cast Iron Air-Tight STOVES; Stove Pipe, Zinc, Chain and Cast Iron PUMPS; Sheet Lead, &c, &c. All the above articles will be sold at as low prices as the same quality of goods can be bought at any other Store in the city.

Patent Safety Lamp and Lamp Feeder.

A NEW article, warranted to prevent all accidents, from the use of Burning Fluid, Camphene, and all other explosive compounds used for the production of light.

This invention is applied to Silver, Brass, Brittania, Glass, and all other styles of Lamps, and Lamp Feeders.

CERTIFICATE.—We have had an opportunity to test the Patent Safety Lamp and Lamp Feeder of Mr John Newell, of this city, in regard to the measure of protection which their construction affords. In the trials to which we subjected them we endeavored without effect, to produce explosions of the vapor of the fluid mixed with air, and to burst them by the pressure of the vapor alone.

The principle adopted by Mr Newell is that of the well known Davy Lamp. He has so combined the parts that we are satisfied that all risk of explosion is removed.

Westward Ho!

THE attention of all persons who contemplate emigrating to the "West" is invited to the following facts, to wit:

1st. That the subscriber resides in the most fertile region of country in the United States.

2d. That lands are held at so low a price that it is at present within the reach of any man to purchase a farm and in a most beautiful and healthy climate.

3d. That persons who desire to emigrate to that country but have not the means to purchase a farm when they should get there, that he will sell them farms and wait upon them for the purchase money till they can raise it from the surplus products of such farms.

4th. That one man can raise from his own labor and that of a span of horses, from $300, to $600 per year, besides supporting his family.

5th. That he can locate them upon government land near a good market.

6th. That the location made for them, (except upon government land) would be in a good neighborhood of Eastern people, where the privilege of schools are had.

7th. Any person having lands, or wishing to locate any land, can obtain any information they may desire—also any claims which they wish adjudicated or collected in the Western States will be promptly attended to upon application to the subscriber.

Also the highest price paid for land Warrants, and locations made of the same upon the best lands in the great West, under his own supervision.

Any information wanted upon any business, land matters, or otherwise, may be obtained by addressing

THE BEST
STOVE in the Market!

EXPERIENCE has proved satisfactorily, and undeniably, that the

BAY STATE
COOKING STOVE,

(For which the subscriber is Sole Agent,) is the very best Cooking Stove ever invented, surpassing in its cooking apparatus—boiling, broiling, baking, &c., &c., all competitors, as well as in smoothness and thickness of Castings, durability and economy. The fact that more than 25 000 are sold per annum, is of itself proof positive of its general excellence.

Over 300 have been in use in this city and vicinity for upwards of three years without requiring repairs, for which purpose the undersigned has castings constantly on hand.

One great advantage possessed by the Bay State over all other Stoves, of whatever description, (to which advantage public attention is particularly invited,) and which enables it to bake equal to the very best brick oven, is the improved and durable and economical character of its fire plate, being of great thickness and composed wholly of one casting, requiring less fuel than other Stoves, and baking with great evenness and expedition — This advantage will be appreciated by all intelligent housekeepers and cooks.

The Bay State is of six sizes, varying from $15 to $50.

THE WARRANT!
TAKE NOTICE.

Stoves not proving satisfactory after a fair trial of 30 days, the price paid and expense of returning will be refunded.

All other kinds of Stoves, Furnaces and Ranges, together with Registers, Ventilators, and Copper, Steel, Sheet Iron, and Tin Ware constantly on hand and for sale at reduced prices.

BANGOR AIR-TIGHT COOKING STOVE!

THE best Cook Stove ever introduced to this or any other people.

Having secured the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this eastern market, by the experienced and expert Stove manufacturers, Messrs. Eastes & Whittier, who know, and have appreciated the wants of this enlightened people. It is now offered to the public with the fullest confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its conveniences for Boiling, Broiling, Frying, &c., are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. One very important feature is it has very stout and smooth castings, and being manufactured in this city, can at all times be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be ordered from New York, Rhode Island or elsewhere. Every Stove is warranted one year, and one not giving entire satisfaction may be returned and the money will be refunded after 30 days trial.

—ALSO—

A great variety of other patterns of cooking Stoves, such as the

Our State, Bay State, Empire State, Granite State, State of Maine, &c.,

All or any of which will be sold at extremely low prices.

Elevated Oven Stoves—Hampden 3 and 4 Boiler and two Oven—Boston two oven Stoves, Forrest Queen, &c.—and that very beautiful pattern of Cottage Parlor Cook Stove, and in fact every variety of Stove for Cooking or warming, worthy of notice, can be found at the Central Street Stove and Furnace Depot.

CULVER'S COAL FURNACE

Is acknowledged to be the very best Furnace for Coal ever introduced.

PROUTY & MEAR'S WOOD FURNACE!

Manufactured entirely of Cast-Iron is the most durable and economical Wood Furnace to be had—

—ALSO—

Lombard's Kennebec Wood Furnace, of which I let the past season 10 of 12 and they have all given entire satisfaction. From six to eight cords of dry hard wood is sufficient to warm any ordinary sized dwelling house.

Any of the above Furnaces set in the best and most approved manner at short notice.

N. England Truss Manufactory
JAMES FREDERICK FOSTER,
MANUFACTURER OF
Ratchet and Spiral Trusses,
467 *Washington Street*, 467,
BOSTON.

ALL the various approved trusses constantly for sale. Ladies waited on by Mrs Caroline D. Foster, who has had twenty years experience in the business.

Strangers in the city will please take notice the old numbers and the even numbers are on opposite sides of the street, it being 459 opposite to the subscriber's residence 467, where he will keep a full supply of Ready Made Trusses, for Gentlemen and Ladies, Youths and Infants. Abdominal Supports of five or six different kinds, and such as Hull's, Chapin's Spinal, Cutter's, Fitch's, Ingalls', &c., &c.

Ladies waited upon by Mrs. Caroline D. Foster at the above place.

The following certificate from Dr. John C. Warren of Boston, was given 16 years since, but will last forever:

Boston, January 7, 1835.

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster to supply the deficiency occasioned by the death of Mr. Beath. After some months of observation of his work, I am well satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to those important articles.

JOHN C. WARREN, M. D., Boston.

CERTIFICATE.—The following certificate is from Professor Stuart, of Andover Theological Seminary:—

The undersigned having occasion to employ Mr. J. Frederick Foster, of Boston, in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr. Foster's success in the manufacture and adapting them to the body, giving ease and comfort to the wearer, surpass (as far as our experience goes) any other manufacturer of the article.

The numerous testimonials which he has received, together with the recommendations of that eminent surgeon, Dr. J. C. Warren, is sufficient guaranty for all who may favor Mr. F. that his instruments will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation.

M. STUART.

PATENTS.
American and Foreign Office
AGENCY FOR BUSINESS
WITH U. S. PATENT OFFICE,
WASHINGTON.
No. 22 State Street, . . . Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier* he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them, *matters in general of paramount importance in order to obtain correct specifications and claims.* The experience of sixteen years' practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts there kept of inventions patented at Washington, enable the subscriber to afford inventors desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1850.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq. of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE, Late Commissioner of Patents.

DR. MORSE'S INVIGORATING CORDIAL!

FOR GENITAL DEBILITY, IMPOTENCY, INCONTINENCE, OR NOCTURNAL EMISSIONS, &c. The astonishing success which has attended this invaluable medicine, for *Loss of Muscular Energy, Physical Lassitude*, and *General Prostration*, arising from the consequences of youthful indiscretion, or indulgence of the passion in riper years, renders it the most valuable preparation ever discovered. It is the remedy for the above complaints it stands unrivalled and alone. There is no other reliable remedy, [illegible] that has authentically received the sanction of the Medical Faculty. This WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested, and its virtues proclaimed by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS, HEAD and MIND COMPLAINTS—the mental physic so long sought for and never before found, the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of Self Destruction, fear of Insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by Sensual Excesses, or evil practices. It has been said by some that these disorders, [illegible] &c., were incurable. This however is not the fact. DR. MORSE'S INVIGORATING CORDIAL [illegible] and a constantly curing these complaints [illegible] the mental and bodily incapacity of the [illegible] sufferer, as the following testimony of the [illegible] concerned will conclusively show:

Dr. Woodward, of the Massachusetts Insane Hospital, writes of one of his patients being cured by using this cordial, thus:—"It gives me pleasure to inform you that one of my patients, while in Boston, procured some of your Cordial. He tells me that he has used but one [illegible] since he commenced taking it, whilst before he had two or three a week. When he applied to me, says Dr. W., I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in these cases in the hospital, but they had no effect. In the meantime he purchased some of your Cordial, which has effected a cure. I am sure no other medicine would. I shall ever recommend it whenever an opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of remedies out of the question, and the proprietor could produce a host of this most conclusive testimony to show that the great reputation it enjoys is [illegible] ordinarily obtained, but is firmly based upon its [illegible] and apparently miraculous cures. In all directions are to be found the happy parents of healthy offspring, who would not have been so but for this [illegible] preparation. And it is equally potent for many [illegible] for which it is recommended.

THE MEDICAL JOURNALS

have not in a single instance that has been [illegible] given their sanction to any other [illegible] above complaints. In fine, in many [illegible] private cases, effected radical cures, after [illegible] been abandoned, and their condition [illegible] by medical practitioners of high [illegible].

THE COMMON EXPRESSION

Of those who have used this Extract is—"I [illegible] your Cordial highly spoken of, but was not [illegible] credulous in regard to its merits, having tried [illegible] medicines sold for the same purpose, [illegible] without deriving any benefit [illegible] of obtaining relief, when I purchased some of your Cordial. I had no faith whatever, of its benefiting me—but it has [illegible] I feel stronger, [illegible] since, although it is not three weeks [illegible] the half a dozen bottles I [illegible] entirely cured me."

Another says—"I had consulted several distinguished physicians. Some said I could not be cured, [illegible] prescribed this thing and that, but I found no relief till I procured some of your Cordial. I [illegible] say it can [illegible] cured me."

Another says—"I was surprised at the effect your Cordial had. Why had I not heard of it before? It would have saved me so much expense, besides years of mental and bodily suffering."

CAUTION.—Ask for Dr. Morse's Cordial and take no other, as there are worthless imitations which its [illegible] excellence, fame and popularity, have brought into the market. [illegible] all other Cordials, &c.

OF CONSUMPTION.

Many years of trial, instead of impairing
public confidence in this medicine, has won
an appreciation and notoriety by far exceedin
most sanguine expectations of its friends. No
but its intrinsic virtues and the unmistakable ben
fited on thousands of sufferers, could originate
and maintain the reputation it enjoys. W
many inferior remedies thrust upon the comm
ty, have failed and been discarded, this has gai
friends by every trial, conferred benefits o
afflicted they can never forget and produced c
too numerous and too remarkable to be forgot
While it is a fraud upon the public to pre
that any one medicine will infallibly cure—
there is abundant proof that the Cherry Pec
does not only as a general thing, but almost inv
bly, cure the maladies for which it is employ
As time makes these facts wider and be
known, this medicine has gradually become
best reliance of the afflicted, from the log ca
the American peasant, to the palace of Eu
Kings. Throughout this entire country, in e
State, city, and indeed almost every ham
contains, Cherry Pectoral is known as th
remedy extant for diseases of the Thro
Lungs—and in many foreign countries, it is co
to be extensively used by their most inte
Physicians. In Great Britain, France and
many, where the medical sciences have re
their highest perfection, Cherry Pectoral i
duced, and in constant use in the Armies
als, Alms Houses, Public Institutions, and
mestic practice as the surest remedy their
ing Physicians can employ for the more dan
affections of the lungs. Also in milder cases,
children it is safe, pleasant, and effectual
In fact, some of the most flattering testi
we receive have been from parents who
found it efficacious in cases particularly
tal to childhood.
The Cherry Pectoral is manufactured by a
ist, with invariable accuracy and care
sealed and protected by law from coun
consequently can be relied on as genuine w
adulteration.
We have endeavoured here to furnish th
munity with a medicine of such intrinsic s
ity and worth as should command itself t
confidence—a remedy at once safe, speedy
fectual, which this has by repeated and cou
trials proved itself to be; and trust by gre
in preparing it with chemical accuracy,
form strength to afford Physicians a new ar
which they can rely for the best results, an
afflicted with a remedy that will do for th
that medicine can do.
